- Market: Market & Competitive Analysis, Pricing Strategy, Multi-channel GTM Launch, RBI Regulatory Compliance.

WORK EXPERIENCE

Mar '24 – Jun '26 | Sr Product Manager | Samsung R&D Institute India, Bengaluru

- Product Strategy & Scale: Leading the global evolution of Samsung Finance+, managing lending journeys across offline, web and O2O channels with 50K+ daily new applications, 5K+ from repeat users - annual volume of 1.3m devices and \$400m in sales at 303\$ ASP.
- AI-Augmented Requirements: Accelerated the product discovery (usage feedback) phase by utilizing AI-driven synthesis of user feedback and market data to define high-priority features and technical specs for the India market
- AI-Enhanced Risk & Collections: Collaborated on predictive risk guardrails that reduced delinquency from 15% to 4% while maintaining a high partner offer rate.
- Flow Optimization: Re-engineered the lending model using AI-driven user flow analysis, successfully reducing customer conversion time by ~5–10 minutes.
- Regulatory & GTM: Instrumental in assisting NBFCs with RBI compliance by regulatory mapping, ensuring seamless integration of new guidelines into the product;
- UX/UI Collaboration: Partnered with Design teams using GenAI prototyping to rapidly iterate on UI components for first-time and repeat-purchase lending journeys.
- Re-introduced lending for consumable electronics - 5K sales for Refrigerator, 2K each for TV, Washing machines and AC
- Increased leads by 15% and sales by 10% by reducing wait time for loan application creation and device bottlenecks
- Increased premium phone sales by 10% by launching Galaxy program for customers to own premium device annually
- Improved approvals by 15% and maintained above industry par by introducing various mechanisms with financiers.
- Instrumental in Accessories launch, insurance launch ~20% attach rate each
- Collaborated with existing and added new partners to provide customers with offers leading to higher conversion rates
- Increased transacting dealer base by 15% and overall application creation by 20% by launching Mobile form factor
- Reduced frauds and delinquencies by introducing prevention measures across customer, dealers like reference numbers, selfie check, KYC limits, firmware checks, pincode checks, OTP based form signing
- Instrumental in launching Graded defeaturing – capability to defeature the device instead of complete lock. Led to reduction in delinquencies and customer VOCs without impacting the daily livelihoods of the customers.
- Enabled biz to perform targeted campaigns for customers and merchants; Reduced campaign launch time by 50% across multiple geographies; Launched campaign manager module from scratch to create and manage various campaigns

Jan '23 – Dec '23 | External Consultant (Product Management) | Boston Consulting Group, Gurugram, India

- Spearheaded market intelligence using AI-powered trend synthesis tools, delivering deep-dive competitive landscapes for C-suite stakeholders 50% faster than traditional cycles.
- Drove Platform Growth: Achieved a 50% MoM increase in usage and a 75% rise in specialist engagement through data-backed feature prioritization.
- Strategic KPI Architecture: Defined and automated performance metrics using predictive analytics, leading to higher return rates and reduced onboarding friction.

Aug'22- Nov'22 | Senior Product Manager | Byrd GMBH, Berlin, Germany

- Administered efficient working of project lifecycle within required management services; reviewed & tracked project milestones & deliverables; identified bottlenecks and taking appropriate measures
- Conducted market assessment, confirming market potential and developed business cases accordingly
- Drove continual improvement to ensure excellence in delivery through metrics-based measurement process; improved service levels by closely monitoring SLAs
- Introduced Agile for Data Analysts & Data Engineers

Sep'21- Jul'22 | Travelling and working on short projects | Europe

- Dedicated 10 months to global travel while executing short-term product consulting projects in the European tech ecosystem, maintaining a sharp focus on international market trends and cross-cultural user experience.
- Product Manager | Velory AB (IT asset management), Stockholm, Sweden

Jan'20- Aug'21 | Product Manager | McKinsey & Company, Gurugram

- Enhanced user adoption rate by 15% for a healthcare provider through the development of a comprehensive Go-To-Market (GTM) strategy in collaboration with the marketing team
- Achieved a 15% increase in overall transactions for a healthcare provider by focusing on cross-selling and journey improvements
- Pioneered the conception and implementation of an Auto loan journey for a bank, resulting in a remarkable 10% growth in market share
- Provided coaching and guidance to multiple clients on various aspects of product management, including Design, Development, and Agile methodologies
